ABOUT ME

A self-motivated, committed and enthusiastic frontend developer who is passionate about building web applications in JavaScript (including React.js). Love to solve problems, write clean and maintainable code for web applications. Looking forward to a promising career in the position of Frontend Developer.

PROJECTS

Damigari | 🔗 | 🌐

📅 09 2022- 11 2022

- Damigari is a platform to buy and sell new and used cars. Anyone can post a car for sale after registering fast, but if the admin accepts it, they can post the car through the listing and this post will be notified to the admin. If the admin accepts it, it will be added to the main page. And for every car there is a bid option, whoever bids first will get the car
- Item 2

Islamic Scholars (group project) | 🔗 | 🌐

📅 072022- 8 2022

- This Project (Light of Islam) is an online fatwa (question and answer) and a platform for scheduling the country's best scholars. It is a web application which is focused on finding scholars' schedules for Islamic conferences or seminars,
